

PRIYASH RODE

Electronics and Telecommunication Engineering Student | Software Developer

Email: priyashrode@gmail.com
Phone: +91 8484807597
Address: Pune, Maharashtra, India 411014

GitHub: github.com/priyash-rode
Portfolio: [Tele-medicine Application Link](#)
Institution: AISSMS IOIT, Pune

PROFESSIONAL SUMMARY

Organized and dependable Electronics and Telecommunication Engineering student with hands-on technical internship experience in full-stack development and data science applications. Proven track record of managing multiple project priorities with a proactive attitude, rigorous version control discipline, and a collaborative mindset. Adept at breaking down complex requirements to build clean, functional software systems and eager to apply analytical and developer skills to real-world engineering challenges.

WORK HISTORY

Full Stack Development Intern	01/2026 – 02/2026
Elevance Skills	
- Executed real-world web development modules, strengthening full-cycle problem-solving capabilities across the software development lifecycle (SDLC). - Built, customized, and deployed responsive user interfaces and robust web applications leveraging HTML, CSS, JavaScript, Python, and Django. - Managed core database configurations, rigorous software testing/debugging phases, and structured version control using Git to ensure secure, production-ready code. - Collaborated effectively in cross-functional technical team sprints, iteratively aligning application performance with project specifications and client outcomes.	
Virtual Volunteer Intern	11/2024 – 12/2024
Imaginos Foundation	
- Supported foundational community outreach frameworks virtually, demonstrating strict accountability, structured time management, and proactive milestone tracking. - Coordinated task dependencies with remote peers to meet time-sensitive organizational objectives efficiently.	

EDUCATION

Bachelor of Technology (B.Tech)	Graduation: 06/2026
Electronics & Telecommunication Engineering	
AISSMS IOIT, Pune	
First Year CGPA: 6.8	

TECHNICAL & CORE SKILLS

Languages: Python, C++, HTML, CSS, JavaScript
Frameworks & Tools: Django, Git Version Control

TRAININGS & CERTIFICATIONS

Data Science Certification	08/2025 – Present
CODL, Virtual	
Comprehensive academic and hands-on tracks covering foundational data analytics, statistical modeling, machine learning setups, and data-driven computational workflows.	

LANGUAGES

English: Upper-Intermediate (B2)
Hindi: Bilingual or Proficient (C2)

Data Analysis: Pandas, NumPy, Microsoft Excel

Core Knowledge: Full-Stack Web Architectures, Relational DBs, Debugging

EXTRA-CURRICULAR ACTIVITIES

- **Editorial Executive** | Telecom Student Association (TESA)
- **Editorial Executive** | Institution of Electronics and Telecommunication Engineers (IETE)

Marathi: Bilingual or Proficient (C2)

German: Beginner (A1)

INTERESTS

- **Automotive Tech & Motorsport:** Vehicle dynamics & software integrations.
- **Software Craftsmanship:** Contributing to open-source & script tooling.
- **Strategic Reading & Travel:** Technical literature & exploring local geographies.
